Spyker C8 Laviolette LM85

Spyker introduces the C8 Laviolette LM85 of which a maximum of 24 production slots are being offered. The LM85 has been designed in the spirit of the Spyker Squadron GT2 (LMES) race cars and sports a GT2 inspired livery. The LM85 is named after the starting number of the GT2 cars Spyker has had at Le Mans since 2002.

The LM85 specification list is exhaustive with exclusive elements incorporated. All 24 LM85 owners are special guest during the 24 Hours of Le Mans in June 2009. Furthermore, a special Chronoswiss 24 Hours Pilot Watch is part of the offer.

Features

The LM85 is an advanced mid-engine, two-seat sports car. It is characterized by a lightweight all aluminium body construction and an uncompromising engineering package. The powertrain of the LM85 is the all aluminium Audi 4.2 Litre V8 engine producing 400 bhp. This is paired to a manual six-speed Getrag gearbox, driving the rear wheels with a Drexler limited slip differential. The use of aluminium parts and other lightweight materials results in an impressive power-to-weight ratio and underlines the GT2 racing heritage of the LM85.

Based on the Spyker C8 Laviolette GT2R, the racing characteristics of the LM85 are numerous, such as the structural aluminium chassis, GT2 livery (Burnt Almond Orange with Gun Metal 'S' logo), side mirrors in gun metal, a carbon fibre rear spoiler, and GT2 windscreen streamer. Behind the black powder coated alloy wheels, black AP Racing 6 piston brake calipers with AP Racing logo appear.

The ample use of black leather and alcantara, which is originally meant to reduce light reflection during racing, has been finished with orange contrast stitching and characterizes the unique interior of the LM85.

On request, Chronoswiss dials and switches can be installed and are virtually identical to the Chronoswiss 24 Hours Pilot Watch every LM85 owner receives with his car. The black floor mats are made of fire protective material, finished with orange piping and the LM85 logo embroidered.

Pilot Watch

Every LM85 owner receives a special edition Spyker Chronoswiss 24H Pilot Watch with orange crocodile strap. The serial number of the car will be engraved on the case of this exquisite time piece.

Le Mans VIP Weekend

Racing is of key importance to Spyker as it breeds the brand and highlights the endurance and performance capabilities of our cars. Spyker therefore has had its own factory race team since its inception in 2000: Spyker Squadron. In 2009 Spyker Squadron will participate in the 24 Hours of Le Mans for the seventh time. The 24 Hours of Le Mans is a unique event for both racing fans and drivers. As part of the LM85 offering all LM85 owners are invited to celebrate and experience the 24 hours of Le Mans 2009. During this VIP Hospitality weekend, Spyker hosts the owner and guest at the most famous sports car endurance race, held on the "Circuit de la Sarthe".

Safety & Security

Driver's airbag steering wheel
3 Point restraining system, integral steel seat-belt support structure
Remote-controlled central locking system
Alarm system with immobilizer
Bi-Xenon headlights

TECHNICAL SPECIFICATIONS

Body & Chassis

Frame	Structural Aluminium Space Frame
Body	Full aluminium body
Suspension	Fully independent and adjustable aluminium wishbone suspension Koni F1 Shock Absorbers, Eibach Springs, anti roll bar
Active safety	Anti-lock Braking System (ABS)
Brake Calipers	Aluminium AP Racing calipers
Brake discs (front - rear)	Ø356 mm (14") - Ø330 mm (13") AP Racing
Pistons (front/rear)	6/4 AP Racing
Wheels (front - rear)	8,5J x Ø19" - 9,5J x Ø19"
Tyres (front - rear)	235/35 R19 - 265/30 R19
Rear spoiler	Fixed wing

Engine & Transmission

Engine type	Mid-mounted V8, 40 Valve
Engine capacity	4172 CC (254.6 cu in.)
Maximum Power	298 Kw (400 hp)
Maximum torque	480 Nm
Maximum revolutions	7500 Rpm
Fuel Injection System	Multi-Point with Electronic Ignition
Differential	Drexler Limited Slip Differential
Gearbox	Synchromesh 6-Speed Transaxle, Getrag manual gearbox

Performance

Top speed:	300 km/h (187 mph)
Acceleration:	0-100 km/h in 4.5 seconds

Dimensions

Wheel base	2575 mm (101")
Front track	1400 mm (55")
Rear track	1580 mm (62")
Length	4185 mm (165")
Width	ex mirrors 1880 mm (74")
Height	1245 mm (49")
Kerb weight	1275 Kg (2805 lbs)
Weight distribution: front / rear	43% / 57%
Specific Power: kg/hp	3.125
Max. Allowable Weight	1500 kg
Max. Allowable Weight in trunk	50 kg

Consumption (in accordance with Dir. EC/1999/100)

Urban cycle:	19,0 L/100 km
Extra urban cycle:	10,0 L/100 km
Combined:	13,3 L/100 km
CO2 emission	315 g/km

Consumption US (in accordance with US EPA guidelines)

Urban cycle:	13 mpg: Expected range for most drivers 12 to 18 MPG
Extra urban cycle:	18 mpg: Expected range for most drivers 16 to 24 MPG
Combined:	15 mpg

Tank capacities

Fuel tank	60 litres (15,9 gallons)
Engine oil	8 litres (2,1 gallons)
Engine coolant	20 litres (5,3 gallons)
